Construction Waterproofing Handbook: Second Edition by ...

The material is sprayed on to a 60-mil thickness, which dries to a 30-mil, one-piece, no-seam finish. The crew uses a hydraulic Graco 733 sprayer and periodically checks the thickness as they work. One nice thing with the sprayers: You can leave material in the machine for up to two weeks, which gives you the ability to return to a single job on multiple days without a lot of heavy clean-up.
