Experimental Chemistry A Laboratory Manual

Experimental Organic Chemistry: Laboratory Manual is designed as a primer to initiate students in Organic Chemistry laboratory work. Organic Chemistry is an eminently experimental science that is based on a well-established theoretical framework where the basic aspects are well established but at the same time are under constant development.

A Chemistry Laboratory, such as this, is not for 'playing' with. When carrying out chemistry experiments you need to take GREAT CARE in both following the instructions and in keeping a Laboratory Notebook of your experiments and results. If you do this you will be working safely and learning some chemistry at the same time.
