One line summary: The secret to China’s boom since 1977 is State Capitalism Summary: With the exceptions of China and Vietnam, Communist Parties all disappeared in other transition economies The Chinese Communist Party has survived, and indeed prospered from, China’s market transformation Compared with other leading economies, China still has a quite significant state sector...

How China became Capitalist - Summary - Blogging Thoughts

How China Became a Capitalist Nation Founded in 1949 as a hardline socialist country, the People’s Republic of China has steadily embraced the tenets of capitalism, especially since economic reforms were enacted in 1978. Today, China’s economy is the second-largest in the world and will likely overtake the U.S. sometime this century.

How China Became a Capitalist Nation - U.S. Global Investors

The growth of a form of capitalism in China is one of the major economic events of the post-war period. Even though incomes are low by western standards, given the size of the Chinese population the country is now a major economic power. Few envisaged this happening a generation ago. China’s future development now has ... Continue reading "How China Became Capitalist"

How China Became Capitalist — Institute of Economic Affairs

Far from becoming the centre of a proletarian revolution and transformation of consciousness, China has gone capitalist. Instead of workers control

and the use of politics to plan and direct economic life, the Chinese economy is increasingly driven by private property, market exchange, and profit maximisation.

How China Became Capitalist — Institute of Economic Affairs

It is widely believed that China's success is based on a uniquely Chinese "third way," a political and economic model that occupies the ground between capitalism and socialism.
