LX188 Surging Issue and Fuel leak - Yesterday's Tractors

Hey I have a LX188 with the 17hp Kawasaki (water cooled) engine. This thing hunts terrible. When the unit runs there is no gas at all in the fuel filter. None. And it never fills up. All linkages are free to move no binding. All new fuel line so no leaks and still no fuel in filter. Solenoid works on the carb.

LX 188 Surging Issue - Yesterday's Tractors

I have a John Deere lx188 lawn tractor that is giving me fits lately. It started surging at idle and even during mowing when the PTO is engaged. I did some research on this problem and seems common. So I cleaned all the fuel lines and blew compressed air through them. Replaced the fuel filter. Removed the tank, emptied gas and cleaned it out.

I have a John Deere lx188 lawn tractor that is giving me fits...

Using Troubleshooting Chart If you are experiencing a problem that is not listed in this chart, see your John Deere dealer for service. When you have checked all the possible causes listed and you are still experiencing the problem, see your John Deere dealer.

Troubleshooting - John Deere

I have just bought a John Deere LX188 with a liquid cooled Kawasaki 17hp. Runs good for around 20 minutes then it starts to lose power. I feel like the carburetor needs to be cleaned but also have heard that the electronic solinoid needle that is in the float could be bad.

How to fix rough running john deere lawn tractor - YouTube

I have a mid 90s John Deere Lx188 lawn mower. The problem is it surges when it runs no matter how you set the throttle. You can turn the mower deck and as long as it is pulling hard it runs fine. Took carb apart and put kit in it. Same problem. New fuel filter, checked fuel lines from tank forward.

I have a mid 90s John Deere Lx188 lawn mower. The problem...

Lawn mower engines, including those on John Deere products, need the correct combination of fuel, air and ignition spark to keep running smoothly. If the mix is out of balance, the mower may start ...

Why Does My John Deere Lawn Mower Stall After 20 Minutes ...

Possible engine surging will occur at high throttle with transmission in "N" neutral and mower engagement lever disengaged. This is a normal condition due to the emission control system. After performing the checks in the troubleshooting section and your engine is still not performing correctly, contact your John Deere dealer. Replacing Fuel Filter
