The Proteus Paradox How Online

The now widely publicised work "The Proteus Paradox", describes the way that we behave like the God Proteus during gameplay; the God Proteus could allegedly turn into anything he wanted to. As is so common in ancient Greek mythology, there was a snag, rarely worried about in those fine old times: Proteus was subject to the sea god Poseidon.

The Proteus Paradox: How Online Games and Virtual Worlds ...

A surprising assessment of the ways that virtual worlds are entangled with human psychology. Proteus, the mythical sea god who could alter his appearance at will, embodies one of the promises of online games: the ability to reinvent oneself. Yet inhabitants of virtual worlds rarely achieve this liberty, game researcher Nick Yee contends.

Yet inhabitants of virtual worlds rarely achieve this liberty, game researcher Nick Yee contends.

The Proteus Paradox: How Online Games and Virtual Worlds ...

Yee certainly offers some interesting data on how gaming has become integral to modern life. He is right to state that "video gamers no longer form a fringe subculture" and we learn a lot in The Proteus Paradox about how "game thinking" and game mechanisms have embedded themselves in corporate culture. However, on the larger, crucial philosophical questions of the subtitle – how online games and virtual worlds change us – there is little for social theorists to learn here.

Proteus Paradox | Yale University Press

And where we think we are fully in control, unique psychological levers in virtual worlds (such as our avatars) powerfully change how we think and behave. This is the Proteus Paradox. Without a more careful look how these spaces do and do not change us, the promises of virtual worlds and online games are being subverted."

Book Summary: The Proteus Paradox

Proteus, the mythical sea god who could alter his appearance at will, embodies one of the promises of online games: the ability to reinvent oneself. Yet inhabitants of virtual worlds rarely achieve this liberty, game researcher Nick Yee contends. Though online games evoke freedom and escapism, Yee shows that virtual spaces perpetuate social norms and stereotypes from the offline world, transform play into labor, and inspire racial scapegoating and superstitious thinking.
